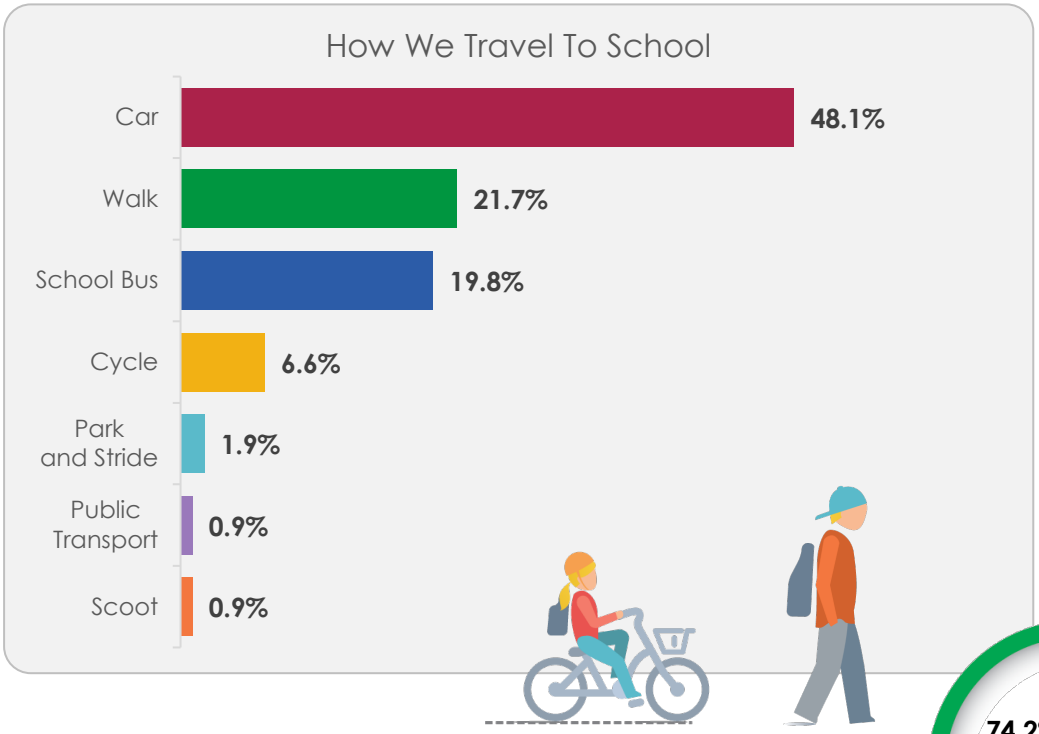
Safe Routes to School
Gaelscoil Míde Travel Survey Results

Results of Our Travel Survey

Responses received: 62 Students represented: 106

Our school has been selected to participate in the Safe Routes to School (SRTS) programme. The objective of the programme is to improve safety at the school gate and to support students to safely walk, cycle and scoot to school.

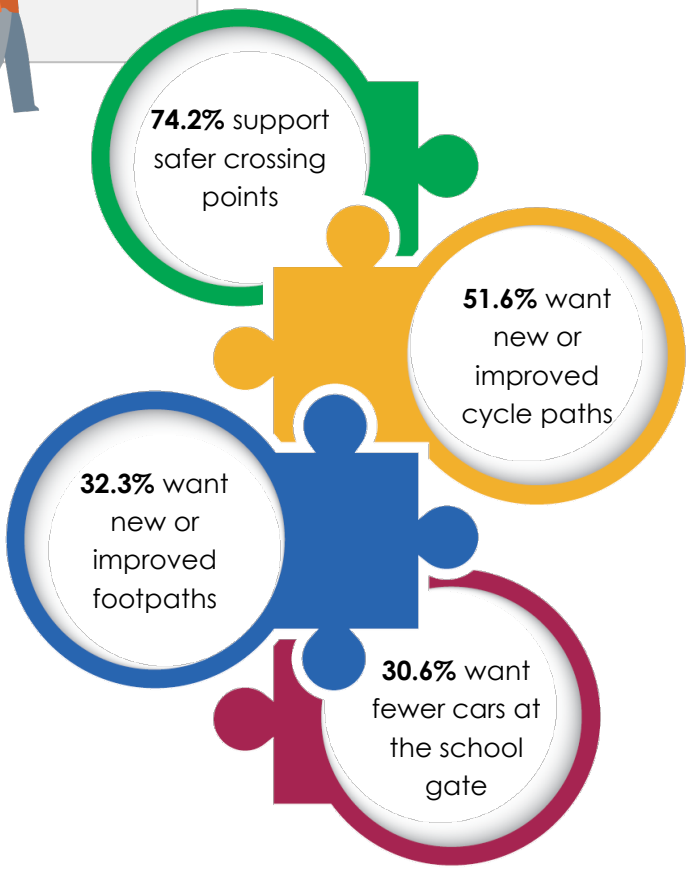
Our Travel Survey results and support for the SRTS programme is showcased below.



66.1% of respondents agreed that road safety is a problem around the school

96.8% of respondents would support works at the front of school that improve student safety

90.3% of respondents would support works that improve the walking and cycling routes to our school



Some key comments received:

"Roads around the school need speed ramps. There are cars that travel at excessive speeds on the road even during school drop off/collection times. Cars double park at the school also outside the school at drop off/collection times".

"My biggest fear when we are walking/ cycling/ scooting to school is the volume of parked cars on the road & the children crossing the road safely when there are a lot of parked cars."
